FLO
In-Office Solution

DELIVER THE *CLINICAL AND ECONOMIC POWER OF CLARIX* INTO YOUR PRACTICE WITH *CLARIX FLO INJECTIONS*

As a regenerative therapy alternative when conservative treatment fails, CLARIX FLO can reduce the pain and disability associated with a variety of inflammatory and degenerative conditions, including:

- **Plantar Fasciitis**
- **Achilles Tendinosis**
- **Joint Tendinitis**
- **Tennis/Golfer's Elbow**
- **Ligament Damage**

CLARIX FLO delivers **clinically impactful outcomes**¹ without the potential complications associated with repeated steroid injections or unclear benefits of PRP.

Specifically, CLARIX FLO has been shown to:

- **REDUCE INFLAMMATION AND ASSOCIATED PAIN & DISABILITY**
- **IMPROVE PAIN & DISABILITY**
- **RESTORE RANGE OF MOTION**
- **MANAGE SCAR TISSUE FORMATION**

AN EASY IN-OFFICE SOLUTION

Incorporating CLARIX FLO injections into your practice will provide you a **marketable and economically viable alternative to surgery** to treat your patients with many common, but persistent conditions of the soft tissues and joints.
